

Welcome To Teknowledge!

We are delighted to have you, and very excited to start exploring the exciting world of computer programming together. In order to prepare for future sessions, we would love to know a little more about you. Please fill these forms out, and hand them to a mentor before the end of class. If you have questions at any time, feel free to ask a mentor.

1) What made you interested in Teknowledge?

2) If you could build any technology, what would it be? (Think about something you or people you know face difficulty with. Are there ways technology can help solve that problem?)

3) What math courses have you taken and what math courses are you enrolled in?

4) What is the favorite course you have taken, and why?

5) What do you like to do in your spare time?

6) What would you like to become in the future?

7) Do you have access to a computer at home?

8) What is your favorite candy?
